About Me

A recent Bachelor's degree in Information Technology with a strong interest in **front-end web development.** Proficient in HTML, CSS, JavaScript, and frameworks like React.js and Tailwind. Experience creating several personal web projects and working in small teams. Committed to clean code and a strong user experience.

Experience

Field Work Internship at PT Agrinas Pangan Nusantara   21 April - 30 Juni

Responsible as a front-end developer for an internal Building Management application project for field officers. This application was designed to enable officers to upload work report evidence efficiently and in real-time. Utilizing HTML, CSS, JavaScript, React, and Tailwind to develop a responsive and user-friendly user interface.

Organitation

Youth organization

Actively involved in community social activities within the neighborhood unit (RW), including assisting with youth event coordination, participant data management, and activity documentation. Directly involved in the implementation of work programs such as community service, August 17 competitions, and youth training (2019).
